*"This is a great program. CME Training's innovative approach to teaching is great! I love the webinars. I can take notes, pause, test my understanding, and then continue when I'm ready. You couldn't do that at a live workshop."*

*"The internship with a CME provider is what hooked me. I can't wait to use what I'm learning to create real CME documents. It will give me something I can put on my resume and in my portfolio. It also will give me a chance to make contacts I can use."*

*"If you want to learn how to write CME --take this course! I wasn't sure if I would be able to keep up since I'm just starting out as a medical writer, but Johanna gives us such a good foundation to begin with, that anyone can learn how to do this."*

*"The content of this course is based on the latest guidelines by the ACCME [Accrediting Council for Continuing Medical Education]. Johanna's whole course models the way CME is supposed to be taught so we can see how it's supposed to be done. She uses the same techniques to teach us how to write CME that she is teaching us to use."*
